All depos were reviewed this weekend and forms will be to Eric hopefully within the next hour.

Eric-one issue. Mr. Kananian's depos were very in depth as far as his jobsites and duties and exposure to asbestos, however, he could not identify my products- I will give you all the revised forms (Except Manville, we did not do that one), but the products will be blank, unless you tell me otherwise when you review them.

aya, per Chris Andreas, the attorney trying Mr. Kananian's case in Ohio, we would like to see the amended claim forms before you submit them to the trust(s). Is this possible? I guess he is already getting some guff from defense counsel over the amended JM claim that we filed last week, which I have attached hereto. Again, we would really appreciate it if you would let us see them before you resubmit. Thanks.

Conference call re Kananian

This is a high-contrast, black-and-white image of a stack of documents. The image is very noisy and grainy, making it difficult to read any text. However, some faint, illegible words and phrases can be discerned through the noise. At the top right, the words "for the best" are partially visible. In the center, there is a small, rectangular area with the text "OL 1". To the right of this, the word "use" appears. Further down on the right, the words "the", "fine", and "process" are visible. The rest of the image is dominated by dark, textured layers of what look like stacked paper or documents.

Thanks,

Chris Andreas
